

The Amusing Life

In the neighborhoods of time
you're incessant
ly funny, fucking
local gods seeing you ludicrous-

ly yearning a doleful nerd thereby.
*Watch this now, and Oh no
not again! one'll crack*

*up: They never do grasp
of course! But THIS one?
Since it knows and knows*

*and learns and learns,
raising "insights"
which instantly fold, why*

*doesn't it desist?
And the missing are here
idea: how those who just left and those who are dead
and those who left at intermediate stages of time
are on this spot in a matter of spk*

*those who came before
in Gtwon --on this spot
and those after*

*dialogs with them all
names fm graveyard*
